

AI Disclaimer

Effective Date: May 13, 2026

This document outlines the inherent limitations of the artificial intelligence technologies used by Wisebite to provide product analysis and insights.

Use of AI-generated outputs is at your own risk. Wisebite shall not be liable for decisions or outcomes resulting from reliance on AI-generated analysis.

AI Limitations & Accuracy

- AI systems are probabilistic and may produce results that are inaccurate, incomplete, or incorrectly interpreted.
- Outputs may include misleading recommendations or outdated information.
- Wisebite does not guarantee that AI analysis is correct, reliable, or suitable for any specific purpose.

Mandatory Human Verification

- Users are responsible for independently verifying all critical information, including ingredients, allergens, nutrition facts, and product safety.
- The **physical product label** and official manufacturer information remain the only authoritative sources of truth.
- Individuals with severe allergies, medical conditions, pregnancy-related dietary concerns, or other health sensitivities should independently verify all information before consuming any product.

Professional Advice Warning

- AI-generated outputs are for informational purposes only and are **not** medical advice, nutritional counseling, or pharmaceutical guidance.
- These outputs must not be used for diagnosis or treatment recommendations; always consult a qualified professional for medical or dietary decisions.

Image and Label Recognition

- Image recognition and OCR (Optical Character Recognition) technologies may fail to detect allergens, incorrectly identify products, or misread labels.
- Factors such as lighting, packaging design, image quality, and manufacturer changes can significantly affect the accuracy of results.
